## TRACR (Targetry Range Automated Control & Recording) Plus

### Description/Summary of Program Requirements
- Sustainment and support for Government owned target control software
- TRACR/TRACR Suite configuration management
- TRACR/TRACR Suite Information Assurance/Risk Management Framework
- TRACR Help Desk to user community
- Refresh and sustain FASIT standards/documentation
- Support for TRACR Army wide upgrades
- Other TRACR related upgrades/enhancements

### Acquisition Strategy
- Acquisition Strategy: Pending Market Research
- Contract Vehicle: Single award IDIQ
- Contract Type: Firm Fixed Price + Cost

### Period of Performance
- Base year plus four one-year options

I-MILES Relevancy Contract-Competitive

Description/Summary of Program Requirements

I-MILES is a critical component to live force-on-force training capability that impacts the overall training effectiveness for units to operate in a training environment. Ensuring the systems remain available, operational and concurrent with evolving technology for the next 30 years is essential.

The I-MILES Relevancy Contract-Full & Open is an effort to address I-MILES relevancy as (1) IMILES product line systems approach end of useful life (beyond economically repairable), (2) platform and weapon systems technologies continue to evolve, and (3) Army - Tactical Engagement Simulation System (A-TESS) capabilities requirement implementation is delayed.

The contract will address required MILES component replacement issues that occur as Live Training Engagement Composition (LTEC)/Live Player Area Network (LPAN) software matures. The contract(s) will replace Legacy MILES components that reach EUL/BER.

Abrams Maintenance Training System (MTS) System Enhancement Package version 3 (SEPv3) Upgrade

Description/Summary of Program Requirements

Project Director Main Battle Tank Systems (MBTS) & Combined Arms Support Command (CASCOM) have identified an Abrams MTS program concurrency upgrade to the Systems Enhancement Package version 3 (SEPv3) Abrams Tank baseline. The SEPv3 upgrade will bring the Hands-On Trainers (HOTs), Engine Diagnostic and Troubleshooting Trainers (ED/TTs) and Diagnostic and Troubleshooting (D/T) Trainers (includes Student Stations (SSs) and Instructor Operator Stations (IOSs)) concurrent with the Abrams Tank and will be utilized to support the 91A, 913A & 915A Military Occupational Specialties (MOSs) courses.

## Description/Summary of Program Requirements

This new work will include continuation for all five current variants and one new variant of the CDT. The goal is to develop a single software/hardware baseline that can meet the requirements of each variant, based on the Cab/Dash installed. Requirements for this contract vehicle by variant are:

1. **Tank Variant (TV):** (1 IOS:1 STS) 18 CDT TV System Tech Refresh and Abrams Common Software Library and improved Drivers Integrated Display Updates (Ft. Benning, GA)
2. **Tank Engineering Variant (TEV):** (1 IOS:2 STS) Update of Joint Assault Bridge interface hardware, software along with 3 CDT TEV Systems Tech Refresh (Ft. Leonard Wood, MO)
4. **Additional systems in support of USMC PM TRASYS**
5. **Stryker Variant (SV):** (1 IOS:1 STS) 5 System Tech Refresh (multiple sites)
6. **MRAP Variant (MV):** (1 IOS:1 STS) 10 CDT MV Systems/Tech Refreshes (multiple sites)

Description/Summary of Program Requirements

The CPM Plus contract is to continue the managed evolution of the Live Training Transformation (LT2) product line (P/L) and provide total life cycle support to Product Managers within the LT2 P/L. The CPM Plus contract meets the requirement for a consolidated streamlined approach that protects and leverages the Army’s LT2 P/L investment, continues to evolve the core assets, architectural frameworks, and the LT2 P/L construct, while providing PM TRADE an efficient, effective and agile method for:

- Management, maintenance, and evolution of the LT2 P/L products, processes and core assets
- Total life cycle system management P/L support of systems/products within the LT2 P/L family of training systems
- P/L support of systems/products that leverage LT2 P/L assets
- Support of external interoperability initiatives such as LVC-ITE, Joint, and Foreign Military Sales
- Synchronization with the Warfighter FOCUS (WFF) contract (and follow-on contract)

ACQUISITION STRATEGY

- Acquisition Strategy: Competitive
- Contract Vehicle: Single Award IDIQ
- Contract Type: Firm Fixed Price, Cost, and Time & Material

PERIOD OF PERFORMANCE

- 7-10 years

MILESTONES

- 1st Qtr FY18 RFI Release
- 2nd Qtr FY18 PALT Initiation
- 3rd Qtr FY18 RFP Release
- 2nd Qtr FY20 Contract Award

POINT OF CONTACT

Organization: PM TRADE
Phone: (407) 384-5201
Email: usarmy.orlando.peo-stri.list.pm-training-devices@mail.mil

FUNDING

- Ceiling: 500M+

CURRENT CONTRACT/ORIGINAL DEVELOPER/OEM (IF RECOMPETE)

- GDMS currently executing a 5-year PoP for CPM Next
Key Stakeholder Engagements

- PEO Home-on-Home engagements (e.g. PEO IEWS)
- CTC Commanders’ Conference
- JRTC CG and COG on RCS modernization
- NTC site visit with AAE and PEO
- JMRC and Multinational Training
- Integrated Air Defense System PEO IEWS and Aviation coordination
- TCM OPFOR now in place with CAC-T/TRADOC
PM TRADE Business Goals

- Reduce operational costs and complexity
- Reduce sustainment and development costs
- Align and support product development (common standards, interfaces, etc.)
- Enhance Soldier training effectiveness
- Increase technology agility
- Leverage other Army systems
- Align to the Army COE, mobile computing, and distributed computing strategies
Join the Live Training Community @ WWW.LT2Portal.mil to find out how we’re saving DoD programs millions of dollars.
LCPM - Life Cycle Product-line Management
I-MILES - Instrumentable - Multiple Integrated Laser Engagement System
IMTS - Integrated MOUT Training Systems
CEVT – Construction Equipment Virtual Trainers
