*Note: All Dates are Tentative*
The effort is for the procurement and installation for the replacement of four (4) of the five (5) of the original JRTC-IS towers and the repair of the foundation for Southern Tower with installation of a new network infrastructure (towers, antennas, mobile shelters, generators, etc.) for four (4) of the original towers and installation of new P25 MASTR V antenna system on Southern Tower.

The requirement for Joint Multinational Readiness Center (JMRC) is for the technology refresh of two (2) antenna subsystem for two (2) towers within the Hohenfels Training Area in Germany.
Gunnery Training Systems (GTS) provides gunnery simulation training for crews and platoons in the Abrams Main Battle Tank, the Bradley Fighting Vehicle and the Stryker Mobile Gun System.

GTS will provide an acquisition and contract strategy for implementing a common product line approach in support of multiple gunnery simulation platforms. This implementation will address the development, production, tech refresh, concurrency, configuration management, and total life cycle management of the various GTS simulation systems.

This effort will include Risk Management Framework (RMF) certification/recertification and embedded training support.
